---

**What is your major?** Mechanical engineering

**Academic/career goal:** My academic goal is to transfer to a 4-year university by next year, either Cal-Poly or UCLA and to attain a bachelor's degree in mechanical engineering. I also would like to further my education by going to graduate school. My career goal is to gain more experience in my field of study and to work for a company where I can utilize my skills and work in a team of like-minded people.

**On-campus involvement:** This peer-mentoring program is my first on-campus involvement and I'm looking forward to it!

**Off-campus relevant experience:** I have interned at an engineering company in Italy called WDE-Maspell and shadowed throughout the years engineers of different fields, which led me to pick mechanical engineering as my major.

**Fun fact:** I have 3 citizenships, Italian, Swiss and American. I'm fluent in English and Italian and I know a little bit of German and French.
